VISSMANN

About Viessmann

Founded in 1917 in Allendorf, Germany, Viessmann is a business that is passionate about creating living spaces for generations to come. Now one of the world's leading providers of sustainable climate (heating, cooling, water and air quality) and renewable energy solutions. Viessmann's German heritage and industry leadership have helped build a modern and highly integrated ecosystem of solutions that emphasize safety, ease of use, high-quality design and durability. An innovation leader offering solutions for both consumer and commercial applications.

We create living spaces for generations to come.

VISSMANN

Features & Benefits

Water heater for the entire family

Vitowell Electric Water Heaters provide an extensive selection of highly durable water heaters for the entire family. They offer Ceratech Viessmann technology, which ensures maximum water pressure and corrosion resistance in water tanks, in addition to an energy efficient smart program for precise temperature control.

High durability and safety standards

As part of Viessmann, we have an obligation to deliver high-quality products. All of our water heaters are made of the finest ABS or steel. Our products are developed to the highest quality and comply with EU standards for health, safety, and environmental protection.

Ceratech Technology

Viessmann electric water heaters use an enamel coating formula with exclusive Ceratech technology that is resistant to high temperatures and offers an extended water tank life. It has been developed by experts for decades, and harnesses the best materials and most advanced technology. This anti-corrosion coating has the ideal thickness and density, allowing for inner surface heat resistance and reduction in scale buildup.

Soft Touch Display

Constant digital temperature regulation and easy to use.

Designed for different need

Vitowell Electric Water Heaters are available in a number of designs to meet the needs of each generation. Their slim, simple, and modern designs are also suitable for installation under the house ceiling. Traditional and compact cubic designs make them ideal for small-space living.

VITOWELL comfort

Storage water heaters

German Brand
Since 1917

VITOWELL comfort

Classic

Robust and safe.

The Vitowell comfort Classic line adopts the exclusive Ceratech Technology enamel coating formula for extended durability of water tanks with enhanced acid corrosion resistance, alkaline resistance, temperature and pressure resistance. The electronic ELCB and water-resistant casing material provides maximum safety.

Heater highlights

- + Precise temperature setting
- + Large magnesium anode for maximum tank corrosion protection
- + Designed for fast and efficient heating
- + Dual-safety thermostats for protection against overheating.

Cube

▪ 15 Litres	1500 Watts / 220 Volts	7.6 kg.
▪ 30 Litres	1500 Watts / 220 Volts	12 kg.
Max working pressure	8 Bar	
Max operating temperature	75°C	

Slim

▪ 20 Litres	2500 Watts / 220 Volts	10.5 kg.
Max working pressure	8 Bar	
Max operating temperature	75°C	

VITOWELL comfort

Premium

Increased efficiency and ease of use.

The Vitowell comfort Premium line with Ceratech Technology offers improved reliability through an anti-corrosion ceramic layer application to heating elements. The temperature LED ring provides greater clarity: orange light is an indication of ongoing heating progress while blue indicates the hot water is ready.

- + Precision temperature control with LED ring indicator
- + Ceramic heating element for advanced corrosion protection
- + Large magnesium anode for maximum tank corrosion protection
- + Designed for fast and efficient heating
- + Dual safety thermostats for overheating protection

Cube

▪ 15 Litres	1500 Watts / 220 Volts	7.6 kg.
▪ 30 Litres	1500 Watts / 220 Volts	12 kg.
Max working pressure	8 Bar	
Max operating temperature	75°C	

VITOWELL comfort

Deluxe

Maximum efficiency and intelligent control.

Vitowell comfort Deluxe water heater comes with digital display functionalities for maximum heating control and substantial energy savings. The electronic timer also assures that the heater will automatically switch on/off and helps to use the device in the most efficient way.

- + Easily adjustable digital temperature using a touch screen
- + Dual power option: fast, constant, and energy efficient warm-up time
- + Large magnesium anode for maximum tank corrosion protection
- + Excessive tank and heat corrosion protection
- + Programmable electronic timer for heating
- + Dual safety thermostats for overheating protection
- + Ceramic heating element for advanced corrosion protection

Cube

▪ 15 Litres	2500 Watts / 220 Volts	7.6 kg.
▪ 30 Litres	2500 Watts / 220 Volts	12 kg.
Max working pressure	8 Bar	
Max operating temperature	80°C	

VITOWELL comfort

Cylinder

Large storage water heaters.

Vitowell comfort cylinders are the right choice if you need a high capacity of hot water for your complete house. Available in 50, 80 and 100 liters, these high-capacity devices are available for horizontal or vertical set-up.

- + Advanced enamel coating for tank and heating element
- + Double safety thermostats for overheating protection
- + Temperature LED for user convenience
- + Horizontal or vertical installation
- + Electronic ELCB
- + IPX4 Splash-waterproof casing
- + Visual thermometer for easy use

Cylinder

▪ 50 Liters	3000 Watts / 220 -240 Volts	18.3 kg
▪ 80 Liters	3000 Watts / 220 -240 Volts	26.3 kg
▪ 100 Liters	3000 Watts / 220 -240 Volts	28.6 kg
