VITOWELL easy Instant water heaters

Features & Benefits

High durability and safety standards

As part of Viessmann, we have an obligation to deliver high-quality products. All of our water heaters are made of the finest ABS or steel. Our products are developed to the highest quality and comply with EU standards for health, safety, and environmental protection.

A superior level of safety*

The innovative Viessmann mechanical ELCB safety switch guarantees complete safety against electrical hazards by means of a mechanical circuit breaker that reacts to any possible electrical leakage. The scalding protection assures that Viessmann instant heaters turn off at 55°C for maximum protection of your family.

Constant Temperature Technology**

Controlled temperature system to provide constant temperature no matter the changes of inlet water temperature or water flows.

Anti-scalding

Protection with auto shut-off at 55°C.

Memory Mode Function***

Memory setting of up to 2 temperatures allowing users to pre-set, making it convenient for temperature control.

* applicable for only instant premium water heater with rainshower

** applicable for premium and deluxe models

*** applicable for only deluxe model

VITOWELLEasy

Classic

Simple and safe shower pleasure

The Vitowell easy Classic is the perfect choice for a reliable and durable water heater. With no compromise in durability or anti scald protection, you will enjoy the right water temperature, using the heater's stepless and precise temperature regulation.

Heater highlights

- + Stepless, manual temperature regulation
- + Waterproof casing in line with IP25 standard
- + Automatically switch off at 55°C
